Professional Technical Support

If you any enquiries, kindly email us at support@m3gps.com or call our toll free **1800 88 3303**. Our experts will be happy to assist you!

*Terms and conditions

1. A total of 24 months warranty is valid upon product registration at support.m3gps.com. Otherwise, only 12 months warranty is originally given.
2. Warranty does not cover user inflicted damages, inappropriate usage, misuse or unauthorized updates from any third party supplier and/or modification made from the original product. M3 Asia Sdn Bhd reserves the right to void any warranty claims deemed not justifiable and applicable.
3. Software update is upon compatibility of GPS model while map update is upon download availability.

NEW! 2013 GPS Software

PAPAGO! S1

with **Predictive** & the **Fastest** Search Function!

New Features

Faster Navigation

Papago! S1 has a new menu scheme which enhances your navigation experience!

Universal Searching

Find your destination faster with intuitive search results. Papago! S1 will predict your destination as soon as you start typing and there is no need to narrow down the search criteria.

User Defined Points of Interest

This makes your navigation experience truly your own with the places you go most often. Create your own selection of POI icons to show on the map, e.g. petrol stations, banks & etc.

PAPA-code

Feel difficult to remember or tell coordinates? PAPA-code makes it easy for you, every code represents its own coordinates accurately.

Switch Road Function

Correct your position at overlapped roads by pressing on the icon at right bottom corner.

Search by phone number
Key in a phone number and it will show you the location directly (depending on the details in map data).

Standard Features

AES & Speed Camera Alerts*

Drive more relaxed with alerts for speed cameras ahead. Papago will also warn you if you're driving above the speed limit.

*AES & speed camera alerts are accurate as per MFM's update.

Realistic Junction Views

Clearly shows which lane to take at junctions so you don't miss your turning. On the most difficult highway intersections, realistic junction view keeps you safe.

3D Buildings & Landmarks

Visualized landmarks & building help you to identify the location easily.

Lane Assists

Clear direction with arrows showing the appropriate lane for you before it's too late to switch lane.

POIs Nearby

Find points of interest nearby your area, e.g. petrol station, bank, hospital, restaurant & etc.

Route Management

Plan the routes in your device and navigate to multiple destinations at once.

Toll Gate Avoidance

You can choose to navigate without passing by any toll gate, an alternative route will be figured.

Voice Navigation (Text to Speech)

Helping you to keep your eyes on the road, spoken instructions now include street names, to make turnings even clearer.

Track Log

You can record the route during the trip and then playback later to review the route to the destination.

Travel Guide

Plan your holiday trip with the provided tourist spots featuring photos and the location.

Save to Favorites

Personalize your favourite list so you can easily find and navigate to your favourite locations again and again.

Multimedia

Not only a navigation device, you can also use it as music player, video player and picture viewer

Multilanguage

Options of 5 languages for system interface and up to 8 languages for you to choose in voice navigation including English, Malay, Mandarin, Cantonese, Hokkien, Indonesian, Thai and even Japanese!
